**DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE**

The eight cornered schoolhouse was built in 1820 by Robert Carter. It was built of stones to a height of one story. The entrance was in the south east side of the structure. From each corner a rafter ran to a central point to form a peaked roof. This roof was covered with wooden shingles. During the last five years the building was taken down by the owner.

SPECIFIC DATES 1820

BUILDER/ARCHITECT Robert Carter

## STATEMENT OF SIGNIFICANCE

The eight corner schoolhouse served as an educational building until 1886. Since that time it has served as a dwelling. If the Carter Mill restoration gets off the ground the owner of the old school site has said that he would like to rebuild the school house.
